What's New?

A person is shown from the chest up, lifting a barbell. The barbell has two large circular weights. The left weight features the Gmail logo (a red and white envelope with a checkmark), and the right weight features the WhatsApp logo (a green speech bubble with a white telephone handset). The person is wearing a dark tank top and is looking upwards. The background is a plain, light-colored wall.

**Whatsapp and Gmail
now has**

1 billion active users!!!

Google and Facebook both announced on Monday, 8th February '16, that Gmail and WhatsApp both claim more than 1 billion monthly active users. The news of both milestones came at nearly the exact same time.

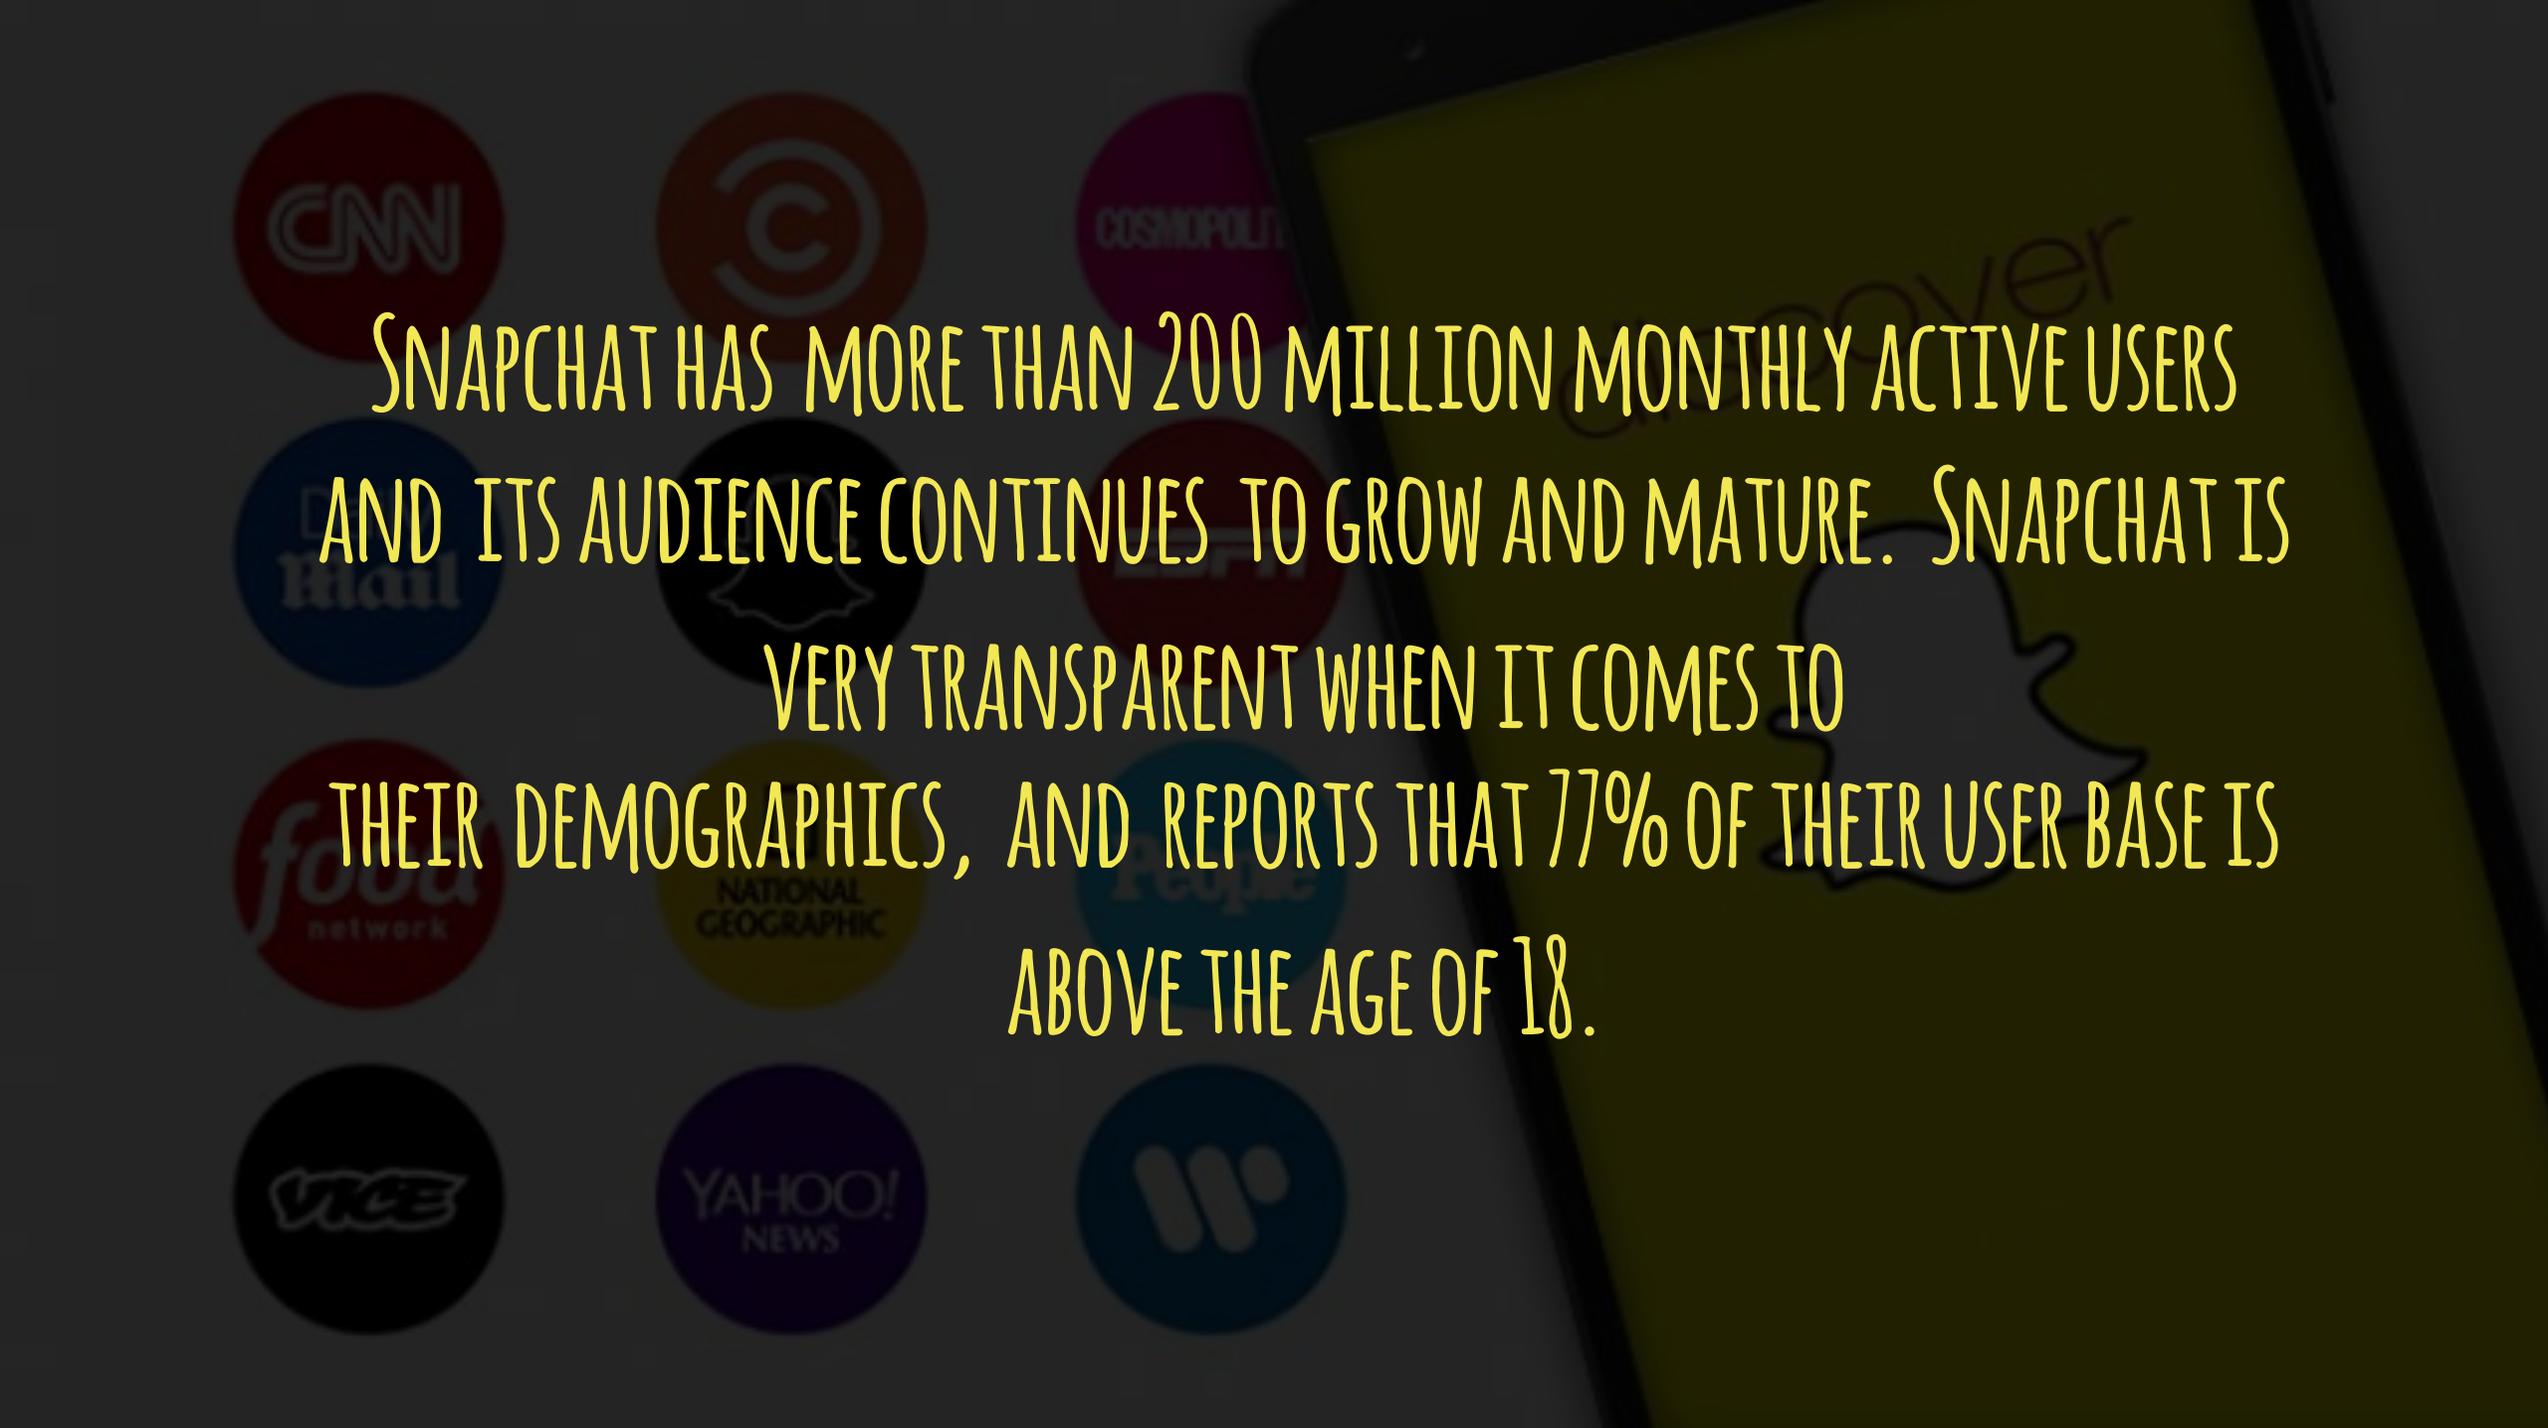

According to Facebook, Messenger is also getting close to the 1 billion user milestone as well

Digital Insights

Why marketers and entrepreneurs should be on Snapchat?

SNAPCHAT HAS MORE THAN 200 MILLION MONTHLY ACTIVE USERS AND ITS AUDIENCE CONTINUES TO GROW AND MATURE. SNAPCHAT IS VERY TRANSPARENT WHEN IT COMES TO THEIR DEMOGRAPHICS, AND REPORTS THAT 77% OF THEIR USER BASE IS ABOVE THE AGE OF 18.

PEOPLE ARE CONSUMING SO MUCH CONTENT ON SNAPCHAT PROBABLY BECAUSE IT PUTS WHAT YOU LOVE ABOUT TWITTER (THE MICRO-CONTENT ASPECT) AND WHAT YOU LOVE ABOUT YOUTUBE (PRESSING A PLAY BUTTON TO SIT BACK AND WATCH CONTENT) INTO A SINGLE APP.

Calm Yourself

WHEN YOU PUBLISH CONTENT ON SNAPCHAT, IT'S AVAILABLE FOR 24 HOURS, WHICH FORCES YOUR NETWORK TO COME BACK AND WATCH IT; THESE MILLENNIALS WHO ARE USING SNAPCHAT WILL SOON BE ADULTS. THEREFORE, DIGITAL MARKETERS SHOULD START TAKING SNAPCHAT SERIOUSLY.

Platform Overview

Starting this week, Instagram users can switch back and forth between accounts without signing out.

Instagram

Facebook and Twitter, added this feature a long time ago but for social media managers, this update should lead to a sigh of relief.

The catch is that users can still only switch among five accounts and account switching will be available for anyone using version 7.15.

DIGITAL 101

Digital Glossary

DMOZ

Also known as the Open Directory Project, this continually expanding directory is run by volunteers. It claims to be the largest (and is one of the most famous) of the human-edited directories.

iFrames

Also known as simply “frames,” these HTML tag devices allow 2 or more websites to be displayed simultaneously on the same page. Facebook now allows companies to create customized tabs for its fan pages using iFrames, a process which developers find much easier than using the previous “FBML,” or Facebook markup language.

Kaboodle

A social shopping network where members create their own shopping lists and find, suggest and share products and reviews

Ning

A hosting service with a set of community-building tools that allows anyone to create a social network.

Podcast

A series of audio or video content which can be downloaded and listened to/viewed offline (or a particular episode in that series, e.g. podcast #6 of The Sporkful). A podcast is essentially an asynchronous Internet version of a “broadcast,” but to a very specific audience of willing subscribers. Podcasts are sometimes created to provide stand-alone copies of existing radio or television programming (such as daily/weekly shows), but they may also consist of entirely unique content intended for devoted Web-based subscribers.

Jaguar Creates “Actual Reality” VR Experience

At the “Big Boys Toys” expo in New Zealand, Jaguar took Virtual Reality Experiences to the next level. Introducing “Actual Reality”, a VR experience like no other I’ve ever seen, an experience so real, it might actually just be “real”. With a custom VR Headset, and built into the “6-Axis” hydraulic platform designed to create realistic movement during the VR experience... And as Jaguar invited people to try the the F-TYPE VR Experience. It was clear, that it was going to be one that turned out to be not-so-virtual.
